KING MACKEREL COMMERCIAL FISHERY CLOSED IN WESTERN GULF FROM U.S./MEXICO BORDER TO ALABAMA/FLORIDA BOUNDARY

The commercial fishery for Gulf group king mackerel in the western zone is **closed, effective 12:00 noon (local time) November 17, 2005**, through June 30, 2006. NOAA's National Marine Fisheries Service (NMFS) has determined the 2005/2006 western zone commercial quota of 1.01 million pounds of king mackerel has been reached. With this action, the king mackerel commercial fishery in the Gulf of Mexico is closed from the U.S./Mexico border to the Alabama/Florida boundary.

Closure of the commercial king mackerel fishery in the western Gulf of Mexico complies with regulations implemented under the Fishery Management Plan for Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic and is necessary to protect the Gulf group king mackerel resource. In cooperative actions, Gulf states (Texas, Louisiana, Mississippi, and Alabama) are expected to close commercial harvest of king mackerel concurrently in adjoining state waters.

During the closure period, no person aboard a vessel for which a commercial permit for king mackerel has been issued may fish for Gulf group king mackerel in federal waters of the closed zone or subzone. There are exceptions, however, for a person aboard a charter vessel or headboat. A person aboard a vessel that has a valid charter/headboat permit for coastal migratory pelagic fish may continue to retain king mackerel in or from the closed zone/subzone under the 2-fish daily bag limit, provided the vessel is operating as a charter vessel or headboat. Charter vessels or headboats that hold a commercial king mackerel permit are considered to be operating as a charter vessel or headboat when they carry a passenger who pays a fee or when more than three persons are aboard, including operator and crew.

During the closure, no king mackerel caught in the closed zone/subzone may be purchased, bartered, traded, or sold. This includes recreational and tournament caught fish. The prohibition of sale, however, does not apply to trade in king mackerel that were harvested, landed ashore and bartered, traded, or sold before the closure and held in cold storage by a dealer or processor.

To report violations of commercial trip limits or closures, contact NOAA Fisheries Law Enforcement Division at 727-824-5344 or 1-800/853-1964. NMFS is an agency of the Commerce Department's National Oceanic and Atmospheric Administration (NOAA).

NMFS is dedicated to protecting and preserving our nation's living marine resources and their habitats through scientific research, management and enforcement. NMFS provides effective stewardship of these resources for the benefit of the nation, supporting coastal communities that depend upon them, and helping to provide safe and healthy seafood to consumers and recreational opportunities for the American public.

The National Oceanic and Atmospheric Administration, an agency of the U.S. Commerce Department, is dedicated to enhancing economic security and national safety through the prediction and research of weather and climate-related events and providing environmental stewardship of our nation's coastal and marine resources. Through the emerging Global Earth Observation System of Systems (GEOSS), NOAA is working with its federal partners and nearly 60 countries to develop a global monitoring network that is as integrated as the planet it observes.
